Wisconsin Department of Revenue

INSTRUCTIONS

Fill in the county, municipality, TID number, School district, and special district (if applicable) in the upper left hand corner. **

** *If state assessed parcels in this TID being subtracted lie in more than one county or school district, or if only some of the parcels are in a special district; use additional forms to report each portion separately.*

In the blank under the form's title, fill in the TID subtraction year.

This is the year when the parcel was included in the TID. If parcels are from different years, use a separate form for each year.

List all parcels in the TID that are assessed by the state. Do not include the state manufacturing values.

Column 1 – DOR Computer Number, Business Name & Site Street Location

List the DOR Computer Number that appears on the second column of the manufacturing personal property assessment roll. List the name of the owner that appears on the roll. Identify the physical site location by street not the owner's address.

Column 2 – Complete only if some or all of the personal property parcels overlap another TID.

Columns 3, 4, 5, 6, & 7 – Do not include values as state will complete.

WARNING

Failure to provide this information for any state assessed parcels that have not been entirely included within the TID boundaries could result in an inaccurate base value certification.
